

Altro Whiterock™

Replaces tiles at top school

Altro Whiterock wall cladding has been used in the refurbishment of a top independent school's sports pavilion.

Sevenoaks School in Kent has had Altro Whiterock installed in the showers and changing rooms of the school's newly refurbished sports pavilion. The school chose Whiterock after experiencing problems with their existing ceramic tiles. The tiles were prone to leaking, and moisture damage was beginning to affect the sub-wall. Whiterock has much fewer joints – reducing the risk of moisture ingress. Less joints also make Whiterock much easier to clean as there are less places for dirt to get trapped. The school has also had Altro Marine 20 safety flooring installed in the pavilion's shower areas.

"We're very happy with the high quality of Altro's products. We have used Altro Whiterock in several areas where damp and the ingress of moisture has been a problem in the past. Whiterock was chosen over ceramic tiles because its surface is much easier to clean and is incredibly durable."

Graham Merrett
Estates Manager, Sevenoaks School
